

ACUTE CARE PEDIATRIC NURSE PRACTITIONER CONCENTRATION

The acute care pediatric nurse practitioner clinical concentration prepares the nurse for a leadership role in the health-care system. Clinical and theoretical content focuses on systems thinking, evidence-based practice, and translational research as related to the primary health-care needs of children from birth through adolescence, in consultation and collaboration with primary care physicians and other health-care providers. The curriculum includes 570 hours of clinical practice in the advanced practice role and 510 practicum hours for the DNP role. The curriculum prepares the student to be certified as a pediatric nurse practitioner by the state of California and by the Pediatric Nursing Certification Board.
