PREVENTIVE MEDICINE
(PRVM)

Courses

PRVM 517. Lifestyle and Preventive Medicine. 4 Units.
Provides students with a broad foundation in epidemiology and
biostatistics skills as it contributes to the organ system curriculum in the
second year. Students formulate effective and evidence-based preventive
medicine strategies in preparation for treating individual patients and
communities. Utilizes a combination of lecture, case-based learning,
online self-directed modules, and active learning modules to teach
current preventive medicine approaches.

PRVM 791. Applied Preventive Medicine. 2 Units.
Longitudinally integrated course. Improves students’ ability to identify
and apply key concepts in preventive medicine and public health through
practical application to patient cases, specifically focusing on literature
analysis, preventive services selection, and motivational interviewing.
Submitted work included in a portfolio that demonstrates growth in the
discipline.

PRVM 891. Preventive Medicine Elective. 1.5-27 Units.
Offers fourth-year medical students the opportunity to explore various
aspects of preventive medicine and public health, including nutrition,
mission opportunities, functional medicine, lifestyle medicine, and
research.
