

SOCIAL WORK CLINICAL LEADERSHIP (SWCL)

Courses

SWCL 601. Fundamental Statistics. 3 Units.

Focuses on basic, foundational behavioral statistics. Includes causality, levels of statistical measurement, frequencies distribution, measures of central tendency, dispersion, probability theory, normal distribution, t-tests, ANOVAs, and regressions.

SWCL 602. Data Analysis and Applied Statistics. 3 Units.

Provides a comprehensive introduction to utilizing data for diverse leadership applications. Engages students in identifying trends, tracking outcomes, evaluating programs, and making informed decisions based on data analysis. Emphasizes quantitative, qualitative, and mixed-method approaches. Requires hands-on work with applied project data and case studies, actively involving students in data analysis and gaining a deeper understanding of real-world applications. Prerequisite: SWCL 601.

SWCL 604A. Integrative Seminar: Academic Practice. 1 Unit.

The first of three seminars focusing on the art and science of social work education, developing a teaching philosophy, instructional teaching methodologies, grading, educational ethics, and student assessment. Cross-listing: SPOL 604A.

SWCL 604B. Integrative Seminar: Academic Practice. 1 Unit.

The second of three seminars on careers in social work education. Focuses on course subject and curriculum development and participating in social work accreditation. Cross-listing: SPOL 604B.

SWCL 604C. Integrative Seminar: Academic Practice. 1 Unit.

Third of three seminars on careers in social work education. Examines preparation for career opportunities in social work education, and role of faculty in institutional, school, and program engagement and governance. Discusses scholarship expectations, student advising, and mentoring. Guidance on applying and interviewing for positions. Cross-listing: SPOL 604C.

SWCL 605. Digital Design: Curriculum and Course Development. 2 Units.

Digital education pedagogy and assessment for designing and implementing effective clinical social work curriculum and courses. Techniques for leading discussions, constructing successful group assignments, and dealing with difficult subjects addressed.

SWCL 610. Diversity Theory and Global Perspectives. 3 Units.

Critically examines contemporary theories of diversity as seen through the lens of a global perspective, including intersectionality. Provides opportunity to apply these theories using a cultural humility framework for engaging diverse populations in clinical, policy, and research practice.

SWCL 615. Comparative Social Work History and Practice, Evidence-based Practice and Social Justice. 4 Units.

Compares philosophical and historical practice perspectives, addressing social justice and ecological well-being. Examines evidence-based, research-informed, and promising practices.

SWCL 620. Clinical Interventions I: Advanced Theories and Cognitive Behavioral Therapy Interventions. 3 Units.

Examine advanced clinical theories that guide predominate interventions used in behavioral health. Emphasis on understanding foundational underpinnings of cognitive behavioral therapy as basis for interventions related to specific diagnosis and conditions.

SWCL 626. Program Design, Evaluation and Monitoring. 4 Units.

Addresses formative and summative evaluations using quantitative, qualitative, and mixed-method designs. Emphasizes program evaluation and collaboration with stakeholders to ensure evaluation reports meet intended purposes. Includes program methods for the development of a consistent program design and evaluation plan. Utilizes assessment of program needs to address theory and adherence, process and performance, outcomes, impact, and efficiency in program design, evaluation, and monitoring.

SWCL 630. Clinical Interventions and Design. 3 Units.

Examines cutting-edge evidence-based practice applications supporting services for populations with compound needs in hard-to-serve complex communities and systems. Divides content into three areas including clinical interventions, program design, and clinical measures to assess clinical outcomes and service delivery impact.

SWCL 640. Clinical Interventions III: Trans-modular Methods for Complex Systems. 3 Units.

Innovative trans-modal evidence-based practice applications supporting services for populations with compound needs in hard-to-serve communities and systems. Impact on consumer outcomes and health disparities addressed.

SWCL 650. Neuroscience, Resiliency and Trauma-Focused Global Practice. 3 Units.

Examines neuroscience framework and bio-ecological research that underpin resiliency and trauma-informed methods. Emphasis on identifying intervention models that are ethno-racial adaptive and provide evidence of transformative sustainable results.

SWCL 654. Research Methods I. 4 Units.

Presents advanced quantitative research methods, emphasizing experimental and quasi-experimental designs. Examines specific methodologies used in conducting research in the area of social work research. Includes topics of measurement issues, research design, sampling, and statistical interpretation. Addresses survey research, time-series designs, and more advanced techniques.

SWCL 655. Research Methods II. 4 Units.

Presents advanced qualitative and mixed research methods, emphasizing selected qualitative and mixed research methodologies specific to clinical and health-services research. Covers topics including theoretical bases for conducting qualitative research; research design; data gathering, including interviewing, observation, archival and historical research, and data analysis and writing. Introduces various methods for integrating qualitative and quantitative methodologies.

SWCL 658. Advanced Policy Analysis and Research. 3 Units.

Presents conceptual and analytical requirements of policy analysis and research. Examines integration of behavioral, political, economic, and sociometric frameworks for understanding human conditions that support the development of formal policy arguments and policy research for sustained change.

SWCL 660. Implementation Science. 3 Units.

Introduces methods used in designing, testing, and implementing practice innovation in complex and fast-moving interdisciplinary clinical settings.

SWCL 670. Clinical Leadership I. 3 Units.

Knowledge and skills for effective management of clinical systems, supervision, management and evaluation of clinical teams, and educational andragogy.

SWCL 680. Clinical Leadership II. 3 Units.

Examines principles of executive leadership in highly charged and large-scale outcome environments, including role and methods of guiding strategic planning, financial management and judgement, cost/benefit analysis, resource development; and informatics.

SWCL 689. Applied Project Conceptualization. 2 Units.

Provides an opportunity to work with a student's project chair in writing a concept paper used to guide the development of their applied DSW project proposal. Prerequisite: Completion of year 1 of D.S.W. program.

SWCL 690. Applied Project I. 2 Units.

Orientation to the requirements of the applied D.S.W. project. Development of applied project topic and objectives.

SWCL 691. Applied Project II. 2 Units.

Development of the literature review and methodology sections of the project proposal. Prerequisites: SWCL 690.

SWCL 692. Applied Project III. 2 Units.

Completion and successful defense of the Applied DSW Project proposal. Prerequisite: SWCL 690, SWCL 691.

SWCL 693. DSW Project I. 1-4 Units.

Requires conducting a program evaluation, needs assessment, supported research project, or the development of a treatment manual, as determined by applied DSW project objectives. Prerequisite: SWCL 690, SWCL 691, SWCL 692.

SWCL 694. DSW Project II. 1-4 Units.

Requires analysis of a program evaluation, needs assessment, supported research project, or development of a treatment manual, as determined by applied DSW project objectives. Prerequisite: SWCL 693.

SWCL 695. DSW Project III. 1-4 Units.

Requires completion of the discussion section of students' applied DSW projects. Includes a comprehensive discussion of results and a rigorous critique in relation to current research as well as articulating practical implications of their findings, outlining a strategic dissemination plan, and presenting well-founded conclusions. Prerequisite: SWCL 694.

SWCL 696. DSW Project IV. 1-4 Units.

Requires completion and submission of the final version of students' applied DSW projects. Engages students in a comprehensive defense of their projects, demonstrating mastery of their chosen topic as well as its relevance to leadership in clinical social work. Prerequisite: SWCL 695.

SWCL 785. Externship I: DSW Project Portfolio Development. 2 Units.

Requires students to engage their organizational and professional learning networks to support the development of their DSW Applied Project Portfolio. Prerequisite: Completion of Year 1 of DSW Program.

SWCL 786. Externship II: DSW Applied Project Development. 2 Units.

Provides experiential learning designed to support students' completion of IRB processes, initiation of data collection, or proposed program design. Prerequisite: SWCL 785.
