DEPARTMENT OF EARTH AND BIOLOGICAL SCIENCES

Graduate degree programs
Master of Science and Doctor of Philosophy
The Department of Earth and Biological Sciences (EBS) within the School of Medicine at Loma Linda University offers Master of Science degrees in biology, geology, and natural sciences, Doctor of Philosophy degrees in biology and earth science, BS degrees in geology and environmental sciences.

Our goal is to provide students with the best possible opportunities for graduate study in these areas, with strong preparation for careers in the application of research in, or teaching of biology, geology, paleontology, or earth systems science.

Student life
The information on student life contained in this CATALOG is brief. The Student Handbook more comprehensively addresses University and school expectations, regulations, and policies; and is available to each registered student. Students need to familiarize themselves with the contents of the Student Handbook and the School of Medicine's "Orange Book" of Student Guidelines, Policies, and Procedures. Additional information regarding policies specific to a particular school or program within the University is available from the respective school.

Financial information
Schedule of charges (2016-2017)
EBS strives to make it possible for every qualified student to successfully complete his or her degree in a timely manner. For many students, financial arrangements may be key elements in providing opportunity for timely completion. The Department therefore makes available, to as many qualified students as possible, various forms of financial aid within the limits of the departmental budget and circumstances. Such financial aid may take the form of research assistantships (RA) and tuition waivers, or other special awards. It is hoped that these incentives will not only help make a student's graduate career possible, but will also strengthen and expand his or her opportunities for learning during the stay here. Other financial aid, such as student loans or other scholarships are available through the Student Financial Aid office, in the Student Services building. However, every student is responsible for the enrollment fee each quarter. It is not covered by tuition waivers. If a student is awarded an RA, he or she will be expected to document at least 30 hours per pay period (2 weeks) on departmental and research-related projects. Ph.D. degree students will be expected to document at least 40 hours per pay period on their project in order to continue receiving the RA. Please note that R.A.s are awarded on a set amount for the year (M.S. $7,500, & Ph.D. $17,000). This amount is paid out monthly after the first full month of work.

Tuition
$580 Per unit, graduate credit
$290 Per unit, undergraduate credit; $3,480 per quarter

Special charges*
$60 Application fee
$799 Enrollment fee per quarter
$60 Fee for credit by examination
$30 Per unit fee to have credit earned by examination appear on transcript

* Programs may have additional fees.

Secondary faculty
V. Leroy Leggitt
Samuel Soret

Adjunct faculty
Gordon J. Atkins
Stanley M. Awramik
Roberto E. Biaggi
Douglas R. Britton
Benjamin Clausen
Raul Esperante
L. James Gibson, Jr.
H. Thomas Goodwin
Ronald Nalin
Timothy G. Standish

Admissions
In addition to Loma Linda University admission requirements (http://llucatalog.llu.edu/about-university/admission-policies-information/#admissionrequirementstext), the applicant must also complete the following requirements:

Tuition
$580 Per unit, graduate credit
$290 Per unit, undergraduate credit; $3,480 per quarter

Special charges*
$60 Application fee
$799 Enrollment fee per quarter
$60 Fee for credit by examination
$30 Per unit fee to have credit earned by examination appear on transcript

* Programs may have additional fees.
Application procedure
1. The application instructions, available on the Web at <llu.edu/central/apply>, allow students to apply online and begin an application, as indicated in the general University section.
2. A personal interview is often desirable and is recommended by the Department of Earth and Biological Sciences. The interview should be arranged with the coordinator of either the Geology Program or the Biology Program.

Acceptance procedure
1. When the program that the student wishes to enter has evaluated the applications and made its recommendation, the dean of the school in which the program is housed takes official action and notifies the applicant. The applicant must respond affirmatively before becoming eligible to register for programs within the Department of Earth and Biological Sciences.
2. As part of registration, accepted students will be asked to file with Student Health Service a medical history with evidence of certain immunizations.
3. New students are required to pass a background check before they register for classes.

From master’s to Ph.D. degree
A graduate student at this University may proceed first to a master’s degree. If at the time of application the student wishes to qualify for the Doctor of Philosophy degree, this intention should be declared—even if the first objective is a master’s degree.

If after admission to the master’s degree program a student wishes to go on to the doctoral degree, an abbreviated application should be completed and submitted—along with appropriate supporting documents—to the school in which the program is housed. If the master’s degree is sought, the student will be expected to complete that degree before starting any doctoral activity for credit. A student who bypasses the master’s degree may be permitted, on the recommendation of the guidance committee and with the consent of the dean, to transfer courses and research that have been completed in the appropriate field and are of equivalent quality and scope to his/her doctoral program.

Undergraduate programs
Admission requirements
High school and college subject requirements for each program are outlined in the respective programs. Students are required to provide evidence of completion (official transcript) of high school in order to be granted admission to undergraduate programs in any of the schools of the University. A high school diploma or its equivalent, the GED, is required.

To be eligible for admission, applicants must have completed a minimum of 96 quarter units or 64 semester units at an accredited college or university. A minimum grade of C (2.0) is required for all transfer courses unless otherwise specified in specific program requirements; C- grades are not acceptable for transfer. An overall college G.P.A. of at least 2.5 to 3.0 is expected, depending on the program to which the student applies.

Graduate degree requirements
Admission requirements
A four-year baccalaureate degree (or its equivalent) from an accredited college or university is a prerequisite for admission to graduate programs in the Department of Earth and Biological Sciences. Transcripts of the applicant’s scholastic record should show appropriate preparation, in grades and content, for the curriculum chosen. Since there is some variation in the pattern of undergraduate courses prescribed by different programs, the applicant should note the specific requirements of the chosen program. Deficiencies may be fulfilled while enrolled; and prerequisites must be completed prior to matriculation.

Scholarship
Applicants are expected to present an undergraduate record with a grade point average of B (3.0) or better in the overall program and in the major field. Depending on program-specific criteria, some students with an overall grade point average between 2.5 and 3.0 may be admitted provisionally to graduate standing, provided the grades during the junior and senior years are superior or there is other evidence of capability for completing the program.

Graduate Record Examination
Scores on the general test of the Graduate Record Examination (GRE) are required for application for admission to many degree programs. New test scores are needed if it has been more than five years since the last test was taken. Applicants are advised to request information specific to their proposed program of study.

For complete information about the GRE, please visit their Web site at <http://www.ets.org/gre/>, or write to Educational Testing Service, 1947 Center Street, Berkeley, CA 94701 (for the West); and P.O. Box 6000, Princeton, NJ 08541 (for the East). For GRE publications (including study materials), call 800/537-3160.

Programs
- Biology — M.S. (http://llucatalog.llu.edu/medicine/biology), Ph.D. (http://llucatalog.llu.edu/medicine/biology)
- Earth Science — Ph.D. (http://llucatalog.llu.edu/medicine/earth-science)
- Environmental Sciences — B.S. (http://llucatalog.llu.edu/medicine/environmental-sciences)
- Geology — B.S. (http://llucatalog.llu.edu/medicine/geology/bs), M.S. (http://llucatalog.llu.edu/medicine/geology/ms)
- Natural Sciences — M.S. (http://llucatalog.llu.edu/medicine/natural-sciences)
